## EXPERIENCE

### Appiskey

(3 years above)

#### MERN Stack Developer (Dec 2022 – Present)

- Designed and developed scalable web applications using Next.js, Material-UI, Express.js, and MongoDB.
- Led the development of "Tuition Highway," a Learning Management System, improves e-learning experiences.
- Participated in internal hackathons, contributing innovative solutions and idea presentations.
- Implemented Agile methodologies to enhance workflow efficiency and team collaboration.
- Provided leadership and mentorship to junior developers, fostering skill development and growth.
- Managed project architecture and deployment strategies to optimize application performance.

#### Frontend Developer (Dec 2021 – Nov 2022)

- Developed modern, responsive front-end applications using React.js, Redux.js, and TypeScript.
- Built "Beewo," a real estate solution leveraging React.js, SASS UI, REST APIs, and Firebase.
- Optimized web applications for performance, scalability, and cross-browser compatibility.
- Collaborated closely with back-end developers and UI/UX designers for seamless integration.
- Improved code reusability and maintainability by implementing best development practices.
- Conducted code reviews and debugging, ensuring high-quality and error-free code.

### Inciter Tech

(2 years 3 month)

#### MERN Stack Developer (Jan 2021 – Nov 2021)

- Developed FineDeeds, a fundraising and event management solution for nonprofit organizations, handling both frontend and backend development.
- Worked on CARL, an alternative investment mobile app, focusing on frontend development.
- Developed and optimized the frontend of CreditBook, a mobile application for financial tracking.
- Utilized Express.js, Next.js, MongoDB, Firebase, Node.js, and React.js to build scalable applications.
- Improved application speed and responsiveness, ensuring a seamless user experience.

#### Frontend Developer (Sep 2019 – Dec 2020)

- Designed and developed Learning with Parents, an online learning platform, ensuring a mobile-responsive UI.
- Integrated GraphQL and REST APIs to enhance application functionality and data fetching.
- Built modern and scalable UI using React.js, Next.js, Redux.js, Material-UI, and SASS.
- Implemented performance optimization techniques, improving load times and user interactions.
- Ensured cross-browser compatibility and seamless user experience across multiple devices.

## SUMMARY

As a seasoned JavaScript developer, I specialize in building scalable, high-performance applications using technologies like React.js, React Native, Next.js, and the MERN stack (MongoDB, Express.js, React, Node.js). My skills also include TypeScript, ES6, Apollo GraphQL, Firebase, and modern web design using HTML, Sass, and CSS. I am committed to continuously improving my craft and staying current with industry best practices.

## EDUCATION

Bachelor of Business and Information Technology  
[Virtual University of Pakistan](#)

## STRENGTHS

### Software Development

Proficient in modern web and mobile development tools with extensive experience in React and React Native.

## TOP SKILLS

JavaScript | Next.js | React.js

Node.js | Express.js | MongoDB

## SKILLS

TypeScript | React Native | Apollo GraphQL

Redux | Firebase | Unit Testing

Tailwind CSS | HTML/CSS/SCSS

## TOOLS

Slack | JIRA | GIT/GitHub | Figma

YARN/NPM | Cypress/Jest
